# TRAIL FINDER 2 RTR

1/10 SCALE READY TO RUN OFFROAD TRUCK

The R3 Single speed transmission comes with a cast aluminum case and new wider gears to allow for more use along with a Delrin spur with slipper clutch.

The TF2 includes the Hammer Transfer Case. Packed with details, the case features a cast metal exterior and the same new 32P widened gears for durability.

Drawing on the success of the RC4WD MOA gear sets, the TF2 drivetrain has the most durable gears RC4WD has to offer so the TF2 will stay on the trail, day after day.

The most scale accurate axles on the market, the RC4WD Cast Yota axles feature innovative round knuckles, new lower mounting points and compact offset pumpkins.

The Driveshafts for the TF2 are an all new design featuring bulletproof steel universals and a new high quality plastic shaft for great drive-line angles and durability on the trail.

The TF2 Chassis features a molded fuel cell that doubles as an electronics storage box plus an aluminum, frame-mounted under cab electronics tray for multiple electronics mounting options.

# SUSPENSION PARTS

The TF2 includes a set of RC4WD Ultimate Scale Shocks. Designed for ultimate scale looks and ultimate performance. The shocks are machined from billet aluminum and internally sprung.

The TF2 Chassis is a machined billet aluminum ladder frame design with leaf springs, scale shock hoops, chassis servo mounts and hard body mounts. *4-link conversion available*

The TF2 includes a set of RC4WD White Stamped Steel 1.55 internal beadlock wheels. Super tough paintable white finish, aluminum internal ring and popular 6 lug design.

Every TF2 needs a tough set of rock grabbing tires and the included Mud Thrashers in X3 Compound deliver the traction as well as perfect scale looks in just the right size.

The Mojave Body Set includes pre-painted wipers, mirrors, marker light details and door handles for the ultimate in scale looks. Realistic dashboard decals come pre-installed.

**THE DETAILS**

The TF2 Mojave body features new model style square headlights, chrome bumpers and a pre-painted grill and headlight reflectors. A chrome finish bumper is also included.

The TF2 Mojave Body Set includes a great dropped bed molded directly into the body. Pre-painted black, it's perfect for carrying all your scale accessories or spare wheel and tire.

The TF2 Mojave Body set includes pre-painted tail lights and side marker lights. For even more realism, it's easy to add LED lighting to your truck.

The Trailfinder 2 also includes all new scale rock rails plus rear tube rock guard bumpers. These great accessories protect your truck from scrapes and scratches.

1/10 SCALE READY TO RUN OFFROAD TRUCK

The TF2 includes a quality XR3 3 channel 2.4Ghz radio system. Use the third channel to control the winch and add even more fun to your scale adventure!

The TF2 is powered by the nearly indestructible RC4WD 45 Turn Crawler Motor. With its sealed endbell for increased durability and long lasting performance, you're sure to get where you're going.

The TF2 features the popular RC4WD Outcry Brushed Speed Controller with built-in drag brake and a separate 6V 5amp Turbo BEC for reliable, constant power on demand. Anytime.

A great truck needs a great servo to get you out of those tough spots and the TF2 features the Twister. A quality digital servo to handle all your steering duties.

Featuring a massive 153oz@6V of torque and a full metal geared drivetrain, the RC4WD Twister Metal Gear Digital Servo has the power and performance you need when the turning gets tough.
